S AN FRANCISCO, May 14.—[Exclusive Dispatch.] The President was in much better trim this morning when he began his last day in and near San Francisco than he was yesterday, because he had eight hours of good sound sleep. His eye was bright, his step elastic, when at 9 o'clock he placed himself at the disposal of the committee for the day.

Testerday was essentially the army's, but today the navy chaps came in for their share. All the fattleships in the harbor contributed toward the President's escort. The committee having the matter in charge was somewhat shy on carriages and several of the President's party were bandled about from pillar to post before they got settled. Admiral Bickford of the British navy was compelled to take a place in the column, utterly at variance with his dignity, position and rank.

The party proceeded to Union Square, where a large crowd had assembled, and in words ringing with patriotism, the President dedicated the monument commemorating Dewey's great victory at Manila Bay, and he also selzed the opportunity to plead for the constant unbuilding of the navy. at Manila Bay, and he also selved the opportunity to plead for the constant upbuilding of the navy. It was a serious thing for him, for, by his own efforts, when he was Assistant Secretary of the Navy, he had done much to bring the navy up to its present high standard of efficiency. His remarks were cheered to the echo.

The party then drove to the United States transport dock, and made a hurried tour of inspection over the transport Logan. She is an up-to-date, modern troop ship, and the President was delighted with everything.

The United States revenue cutter Golden West was in readiness to convey the President and guests across the bay, and as the President atepped sboard and his broad flag was broken out.

The President came ashore with Rear-Admiral Miller and was introduced to Mayor P. B. Lynch and the members of the Vallejo Executive Committee by the commandant. The President and party were assigned carriages and the parade was then formed. The first sight that met the President's gaze was a pretty one. Three thousand children were grouped on either side of Virginia street. Each child had a flag and gave vent to the national air, "Columbia," as the President's carriage passed.

The parada proceeded by a cleanty-

Mrs. McCalla then stepped forward and in a few well-chosen and carefully-delivered words rejoiced that she had the honor of announcing that President Roosevelt would lay the corner-stone of the new sailors' home. Mrs. McCalla was loudly applauded.

President Roosevelt, then, with the assistance of George Hanscomb of the Y.M.C.A., laid the corner-stone, the event being met with tremendous cheering. On the President coming forward to speak, three cheers and a tiger were given for him.

The President said:

The work of Frank Tyree and his corps of Secret Service men, who guard the President day and night, is little short of marvelous. The police in the various cities have also done splendid service; Chief Whitman of San Francisco deserving perhaps the greatest praise. Many of the petitions received said that rural carriers in certain communities acted as purchasing agents for commission houses which dealt in eggs, butter and cheese; others who represented large dairymen, went about on the lookout for bargains in cows and contracted for the delivery of milk at railroad stations, while still others bought hay, corn, wheat and other farm products for firms represented by them. NORTHERN SECURITIES CASE.

187 THE ASSOCIATED PRESS-P.M.]

WASHINGTON, May 14.—Authoritative announcement was made today of the intention of the Attorney-General to enter a motion in the United States Suprème Court next Monday to advance the hearing of the Northern Securities case, the appeal of which was docketed recently in that court. It is altogether probable that the court will grant the motion, but it is not likely that the court will take action on the motion before the sitting oh June 1, when he court will be in session for the last time during the present term. Hence, there is no possibility of the argument of the case before the court reconvenes on October 12. As assigned cases never are heard during the first week of a term, the earliest probable date for the hearing is October 13. The vast importance of the case will be given as the Attorney-General's reason for asking the court to expedite R. NORTHERN SECURITIES CASE.

COLOMBIA'S PLIGHT.

NO MEANS OF EXTRICATION. THE ASSOCIATED PRESS -A M.1 WASHINGTON, May 14.—A gloomy picture of the terrible plight in which Colombia, finds herself as the result of the exhusting four years of rebellion, is contained in a communication of the exhausting four years of rebellion, is contained in a communication which has reached this city, from a source of unquestionable reliability.

These advices state that on March 1 last, the government gave notice that it had stopped the issue of paper money that was flooding the country, and had turned the lithograph plates from which it was made over to a committee composed of prominent members of different political parties. Consequently the government early in April was almost entirely without funds. It had not enough to pay running expenses, to say nothing of foreign claims and denands. Not a cept of interest had been paid on the national debt since the war commenced in 1899. The claims growing out of the recent revolution were assuming tremendous proportions, and as there were no other means of rejlef, it was apparent that the government again must have recourse to the lithograph stones, and start the presses running again. Moreover, it was the general opinion that even the small measure of relief which might follow the receipt of the \$10.00.000 from the United States on account of the Penama Canal could not be obtained, as it was not expected that Congress would ratify the treaty.

HARTFORD (Ct.) May 14.—By an explosion at the Hartford Club last night a part of the building was wrecked and a panic followed. One or two dinner parties were being held, and the reception and reading rooms were well filled. Suddenly there was a roar in the kitchen, and the whole building seemed to lift. The water boiler attached to the huge range had explosed. The heavy brick wall was blown across the lawn a hundred feet barring the main entrance to the club. Men were thrown in heaps with tables. Chairs, pictures and glasses. No one was seriously hurt.

VICTORIA (B. C.) May 14.—There are rumors at Esquimault that a flying squadron will shortly be organized to undertake a two years' voyage around the world. The report is that the Leviathan will be the flagship, and seven cruisers will accompany her. The cruise is to be experimental, and if it works out as its organizers believe three new cruiser squadrons will be organized, based on Esquimault, Sydney and Simonstown. The idea is to have cruising squads replace the present weak fleets in South American waters and in the Pacific.

If it appears faulty, as the final trial approaches, Mr. Cleveland has only to draw out, as he did from the 'Gold buy' Indianapolis convention, declaring that no one was authorised to put him in nomination. But in the meantime, though Mr. Bryan speculate and Mr. Vilas deny, Mr. Cleveland cannot be induced to utter a declaive.

IBY DIRECT WIRE TO THE TIMES.) NEW YORK, May 14.—The Evening out's Washington special says: "The oresent Cleveland boom and the councer-irritants applied in this and that reer, which the bulk of the newspaper

If ever there was a Presidential possibility who went into a preliminary campaign with substantially all the the sars in their courses fighting against him, it was he. The result of the Chicago convention shows how foolish it is to build prophecies concerning nominations upon the friendliness or unfriendliness of the National Committee.

"Then why should Henry Watterson be so concerned about the return of Cleveland to power, lest he should once more disappoint the expectations of the following who elected him, when the double the president talks of expansion and indimensions and indimensions of expansion. land, who appears in the light of spokesman for the former President, feels confident that Cleveland deserves nomination, and has the confidence of the people. This opinion is widely quoted as significant in the teeth of the fact that it was Foster who used to crack jokes with Brice over the absurdity of Cleveland's running again, as he could not carry a single county in Ohio.

"Such trifies are perhaps unworthy of attention. Their only claim rests on their illustrating the well-known disposition of a multitude of people to take their cues for or against an idea from men who have shown themselves wholly wrong before, or set themselves historically upon such divided ground that if they were right before they must be wrong now."

"If Cleveland is a candidate for the nomination he is not proceeding in the right way to win it. If he is not a candidate he is placing himself before the people in the wrong light.

"If Cleveland wants to win the Democratic nominbalon he must not appear too eager, or even in the light of a receptive candidate. It would be better, I think, If he should say positively that he is not a candidate, and then if he is wanted for a third term, R, would develop in the convention.

CHICAGO, May 14.—The Chicago police this afternoon discovered three men who, it is believed, unsuspectingly aided the mysterious "Russell" in manufacturing his infernal machine for the Cunard steamer Umbria. The men are J. W. Seymour, carpenter: J. W. Elsenberg, blacksmith, and John Clark, machinist, whose shops are in the vicinity of the apartment occupied by Russell in Washington boulevard.

"During the week Russell roomed across the street," said Seymour tonight, "I planed down four strips of wood about twenty inches long for a man answering his description, who said he had a patent of some kind. I believe he said it was a gambling device."

"Some time ago," said Clark, "a man came to my shop and asked for assistance in making a gambling machine. He said it was something new in the way of a gambling device. We made him a cone with an inch base and a disc to fit it. He said that he wanted only one pair of iron pleces, but later asked for three more pairs. He never called for the additional pieces. The man answers the description of the mysterious stranger known at No. 237 Washington boulevard as G. C. Russell."

Chief of Detectives McCluskey and Detective Sergeants Carey and Funston of New York arrived at Chicago today, and spent most of the afternoon following the trunk-check clew. Inspector McCluskey returned to New York tonight, but left his two detectives here to assist the local police on the case. Before leaving for the East the inspector said:

"It believe the machine was made in Chicago, and that the conspiracy, if any existed, was hatched here. We have the entire detective force of New York at work on the case, and we are looking for startling developments soon." (BY THE ASSOCIATED PRESS-P.M.)

OHIO AND ITS IDOLS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 14.—[Exclusive Dispatch.] State Senator Patterson of Pike county, O., Hanna's lieutenant, who is on a visit to Washington, says openly for publication, that the Ohio Republican State Convention next month will not indorse Reosevelt for nomination as the Presidential candidate. Senator Patterson says:

"The Ohio Republican State Convention will not indorse President Rosevelt as a candidate. A resolution will naturally be adopted indorsing the national Republican administration, which happens to be Mr. Rosevelt's, but nothing will be said about his candidacy in 1994.

"Out in Ohio Senator Hanna or even Senator Fairbanks looks more like the

idous ovation to President Rossevelt and party. Long before the hour set for the arrival of the special train, the school children of the city, gaily festooned with flowers, assembled on either side of the street leading to the University entrance. The thoroughfare had been brillhantly decorated for the ogcasion, and when the Presidential party passed up the street the avenue was completely carpeted with the fairest blossoms of the college town.

The Presidential train, gaily caparisoned with flowers, arrived at the Berkeley depot at 10:30 oclock. Carriage and a committee of representative citizens were in waiting and the drive title new amphitheater at the university, where the commencement exercises were held, was immediately begun. Two battallons of infantry and a troop of cavairy, in command of Maj. Ducat, held the crowd in abeyance. Thousands of human throats could be heard above the whistling of the train and the clairt of horseshoes.

In the vanguard of the procession to the university grounds were the members of the Ninth Cavairy, colored. As the President stepped from his carriage and made his way to the amphitheater he was surrounded by Sixteenth Cavairymen. He was decorated with a hood and gown in conformity with the degree of doctor of laws that was to be conferred on him.

GRADUATING EXERCISES.

When the Chief Executive arrived at the amphitheater at the university the long and tedious programme which usually mars the commencement exercises of such institutions had been nearly finished.

The exercises had opened with an invocation by Rev. Albert F. Lyle, paster of the First Presbyterian Church of New Jersey, who is the oldest living graduate of the college for which he officiated today.

Jesse H. Sleinhart, a graduate student, who spoke on "The University

by husical selection rendered by an
orchestra.

So nicely had the programme been
timed that the Presidential party arrived just before the conferring of military degrees by Gov. Pardee, to the
members of the graduating class who
had distinguished themselves as ufficers of cadets.

After the preliminary cheers which
greeted the appearance of the Presidenthad subsided, the rooters of the student
body greeted the head of the nation
with the Harvard yell. He gave approval to the slogans which the colegians rendered again and again by frequent nods and smiles.

Wireless for Farallones. Wireless for Faraliones.

WASHINGTON, May 14.—Acting Secretary of Agriculture Moore has made plans for establishing a wireless telegraph service between San Francisco and the Faralione Islands, thirty miles from San Francisco. The service will supplement the cable between these points, which was Froken recently, and is now in course of repair. The wireless plant will not be installed until the next fiscal year.

Black Postmaster Gets Left. Black Postmaster Gets Left.

WASHINGTON, May 14.—Postmaster-General Payne has rescinded an order creating a postoffice at Quondoquia, Md. for which Andrew J. Day, a negro, was stated for appointment. This was done on reports from Congressman William H. Jackson (Rep.) of the First Maryland District, who deems the establishment of a postoffice there unnecessary because the place is soon to be included within the limits of rural free delivery service.

AST OF INDIANS HAPPILY AT PALA.

TEMPORARY TENT CITY ESTAB-LISHED OPPOSITE OLD MISSION.

Permanent Homes Will be Provided by Government With Aid of Redskins-Inspector Jenkins Credited With Diplomatic Work-Offered Fight, but

[BY DIRECT WIRE TO THE TIMES.] SAN DIEGO, May 14.—[Exclusive Dispatch.] All of the Indians who left Warner's Ranch Tuesday morning f their future home in Pala, slept to night under the tents which the government has provided for their ac-commodations, until the permanent homes are erected, in the work of which the Indians will be expected to which the Indians will be expected to assist. It is the first night in many years that they have slept under can-vas. The first wagon in the cavalcade reached Pala this forenoon at 10 o'clock and the last one was there by the middle of the afternoon, the cattle pringing up the rear. The tents were pitched directly opposite the Pala mission, the work being in charge of

Agent Wright.
The Indians camped last night at The Indians camped last night at the Pauba ranch, a dozen miles -from Pala. Inspector Jenkins passed the night with them, and accompanied them to Pala. They appeared peace-able, in good health, and apparently glad that the long-dreaded pilgrimage was over. A score of news-paper men were assembled at Pala to witness their arrival this morning. "No effort will be spared on the part "No enort will be spared on the pair of the government to make them comfortable," said Agent Wright tonight. "I shall remain here until they are comfortably housed, and are well settled in their new home. Inspector Jenkins has left for the North, but will be

day."

Sam Taylor, foreman at the Warner Ranch, who is here as a witness in the Chutnacut cattle-stealing case, and others who were present at the removal from Warner's, are of the opinion that Inspector Jenkins engineered the difficult job with great credit to the government. Frank Wright of San Francisco, who is subpoensed as a winess in the cattle-stealing case, happened to be at Warner's at the eviction. Concerning the generalship of Jenkins he said:

"He went about it in's business-like manner, and won the Indians com-

"He went about it in a business-like manner, and won the Indians completely. He gave in to all their whims at first. In the meantime he was gradually gaining their confidence. He showed them his commission, signed by President Roosevelt. He made a number of promises, and every promise he made, he saw to it that it was religiously kept. When the time came to act, he went up to them and said that they would have to go. They hesitated.

that they would have to go. They heatiated.

"'Now, look here, men,' said Jenkins, 'I have given you everything except fight, and if you want that. I will see to it that you get plenty. The best way out of this thing is to submit peaceably. My sympathies are all with you, but it is a case of have to go. You are going to a better place, and I will see to it that you get all that is coming to you. I will do everything that I can for you."

"In all his dealings he was open and above board, and he showed that he was looking after them and their interests. One cannot bluff an Indian. They are keen, and they have a long memory, and if one makes a single silp,

They are keen, and they have a long memory, and if one makes a single slip, it is all over with him. Lummis and Wright tried the bluff game, which did not work, and they made themselves very much disliked. At one time, if they had appeared in camp, it might have gone hard with them. Jenkins told them that he had come to them without any weapon except a pocket-knife, and that while probably they were not afraid of him, neither was he of them, as he could easily bring men to his assistance. They grumbled slightly about Lummis and Wright again, and Jenkins fired up

BIG SMELTER SOON.

A smelter having a capacity of 100 tons daily will be in operation in this city within a very short time. The machinery has arrived here and preparations for the erection of the plant are completed. Both Southen California and Lower California ores will be treated, the latter to be brought from the Mexican coast by one or two steamers under charter of the smelter company. The institution will use the oil biast, which is said to make possible the smelting of ores at much less cost than that of other fuels. This is the plant that was planned to be established at San Pedro by L. M. Morgan and L. Davis, but for which satisfactory terms could not be made at that point. About 130 men will be employed.

ATTORNEY VS. AUCTIONEER.

ATTORNEY VS. AUCTIONEER. Harry Lynell, an auctioneer, was a witness in a civil case on trial in the Police Court yesterday, testifying as an expert regarding the value of some property. In his summing up Attorney Beloate intimated Lyneli was partial to one of the parties to the suit. Lyneli declared he would sue the attorney for libel. At the close of the trial the men met outside the courtroom, and after an interchange of words the attorney knocked the auctioneer down. Now the auctioneer has caused the arrest of the attorney on the charge of battery.

The result of the second trial of the Steele brothers for grand larceny was a verdict of guilty, but with the recommendation of clemency for the younger of the prisoners. The men were tried at Yuma on the charge of robbery, under the names of Graham and Stanton. Yesterday George Steele testified that when the jury came in and the court asked if they had agreed upon a verdict, the foreman replied that they had agreed it was time for refreshments and cigars. After that the foreman announced that the pahel had found a verdict of guilty.

The trial, of Juan Chutnacut, one of the Warner Ranch Indians, for cattle stealing, was commenced in the Superior Court this morning. Symoit, Chutnacut's alleged chum in the crime. BAY CITY BRIEFS.

The New York Commercial recently issue is one which concerns every country. The outcome of the contest will be watched with more than a casual in-

terest in all countries where laborunionism has become a question of serious moment. The Victorian Premier fitly characterized the pending struggle in that State as "a long-meditated revolution against established authority." There is no doubt that the movement has been long contemplated. It is there-fore premeditated, deliberate, inten-tional. It will be the duty of the government to suppress the strike, and firmly to maintain its position of authority, else the government itself will be crushed into obedience to the

arrogant rule of unionism, and instead of a government of, by, and for the people, it will be a government of, by, and for trade-unions. In both cases we are dependent on the foreign element to a large exetent, for what supplies we have. Now there are hundreds of strong, well grown Indian boys and girls in schools supported by the government, who are fully capable of self-support in these positions. They have acquired some knowledge of reading and writing and English, but very little in speaking it, because their routine work with teachers is confined to a few phrases and monosyllables. As a general thing they require no more patience on the part of employers than the Chinese, Japs and Italians as well as Swedes, who come to our chores unable to speak a word of English.

A large majority in the Indian whools, as far as my acquaintance goes with them, have not the brains or ambition to make but the most elementary scholarship and they can make a respectable living for themselves if placed out in positions where there is now need for their services. It seems that superintendents and teachers in the Indian schools are very averse to placing them out in any positions.

TRAINED NURSES.

Eleven Graduated from the County Hospital Training School Last Evening-"No Flowers" the Rule.

Eleven more trained nurses were sent forth to the mercies of the medi-cal and public world last evening at Chickering Hall. No. 322 South Broad-way. The sponsor in this case was the County Hospital, per Dr. O. O.

way. The sponsor in this case was the County Hospital, per Dr. O. O. Witherbee, and the young women its class of 1903.

A fair audience witnessed the exercises, which were begun promptly at a o'clock with prayer by Rev. Dr. P. Bresee. Dr. E. B. Hoag then gave an address, dealing principally with the history of medicine and nursing, and the progress of surgery during the past two decades. Dr. Hoag's paper exhaustively kreated all the earlier history of medical science, when healing was classed among the mysterious and occult arts.

O. W. Longdon, chairman of the Board of Supervisors, was programmed for a speech, but was not present. The address to the class was given by Dr. A. T. Lobingler, who dwelt upon the spiritual and sympathetic eide of medicine, and especially upon nursing as a calling, whose devotees could but be of fine and tender nature to properly do their work. Dr. Lobinger held that restoration to health is in many cases as much a matter of kindness and sympathy as of pills and lotions and physical ministrations. Dr. O. Witherbee then presented the diplomas to the graduates, bidding them "bon voyage" in the kindest way, and counselling them with a few simple, well-chosen words of parting advice. An express stipulation on the programme said in good-sized type, "No flowers," so this usual feature of commencements was not in evidence last night.

The class of the County Hospital Training School for 1904 is composed of the following: Grace F. Cady. Florence, Allen, Earlene M. Vaughn, Gertrude Corry, Mamie Martin, Alice V. Hopkins, Louise Hyatt, Rose A. Toberner, Julia Conroy, Navada Bean and Clyda Dorsey. Rose Tobener and Clyda Dorsey were unable to be present on account of illness.

also Mrs. Rogers's grandmother, Mrs. Bogart, from New York, who has been spending the winter at the Rogers home. Mr. and Mrs. Rogers were married in Rochester, N. Y., but their married life has been spent in this city. Their small daughter, Adela, acted as maid in waiting and opened the door for the guests, and Master Bogart stood by his parents while they welcomed their visitors. Music, both vocal and instrumental, and guessing contests furnished the evening's entertainment. The rooms were bright with flowers and foliage, that found places on the plano and in the deep window seats, and that were also arranged in profusion on top of the law book cases. The company included Messrs. and Mmes. Oscar Lawler, Harry C. Carr, A. Boyle Workman, Lucius K. Chase, Frank Cattern, Lewis R. Ganett, Arthur Ballard, Will H. DY BLOW GIVEN TO ORGANIZED LABOR.

President Parry of Manufacturers' Association Shows Dangerous Drift of Country if Labor Unions are Given Free Rein.

[SPECIAL TO THE TIMES.]

Gentlemen, the word conciliation is a good word, but it is being most atrociously used. To think that it should come to be applied to a process of dragooning an employer into court, where he is duly bound hand and foot and then told to pay his men more wages and be good. This conciliatory arbitration business consists, as every unbiased person must acknowiedse, of simply taking the demands of the union, scaling them about one-half and making a decree accordingly. In the words of a certain Chicago labor leader to an enableyer: "You must arbitrate and give us what we want or we will strike." The union asks enough to start with and when the arbiters cut the difference in two and the men have all they want—until the next time. This is the beautiful arbitration that men go about the country praising as conciliatory. Anyone who objects to such arbitration, we are told, is against the Golden Raie. It is remarkable the number of men who are advertising themselves as humble followers of the Golden Rule. It seems to have become quite an excellent phrase with which to boost oneself into public office.

NEW GOLDEN RULE.

ceifent phrase with which to boost oneself into public office.

NEW GOLDEN RULE.

This reminds me that one employer in that wonderful city of Chicago managed during this last year to evade the clutches of the teamsters' conciliatory machine and succeeded in obtaining an arbitration board composed of three ministers of the gospel. The way it came about was like this: The strikers, who were steam engineers at the stock yards, presented a list of names to the employer, and said that he might select three men from the list and they would be antisfied. Whether this employer was influenced by the Golden Rule agitation, or not, is not known, but then for some reason he picked out the ministers in the list. The three men whose calling in life consists in preaching the Golden Rule agitation, or not, which were to work and for several weeks they faithfully heard both sides of the controversy. On April 26 of this year they made their decision. The men had asked for eight hours, three shifts a day, and 37% cents an hour. The board cut their union scale down to 30 cents an hour and said that ten hours was all that they could justly ask. What was the result? The labor men immediately declared that they wanted nothing more to do with ministerial arbitration, and although the engineers had agreed to abide by the arbitration is different from the Golden Rule of the house of the condition of the United States is being given a new reading their should also be a new revised twention of the Golden Rule. I have not spen this revised version in print, but I presume it reads about as follows: "Do unto the employés as the employés demand that you shall do anto them or they will do you."

WON'T WORK HOTH WAYS. It conciliatory arbitration must

WON'T WORK BOTH WAYS. come, as the noted Senator says, then I should like to know if it will be permitted for the employers to make demands and have them arbitrated? Suppose an employer should say to his men: "I demand that you accept a 30-per-cent. cut in your wages, and if you do not accede to my new scale I demand arbitration." Following precedents established in arbitrating labor demands, the arbitrers should cut the employers' demand in two, and issue a decree that the cut shall only be 10 per cent. The idea I here advance is not patented. You may try it if you wish. But I further wish to say to you, in all confidence, that I will not guarantee success. It is true that it is a poor rule that does not work both ways, but then It depends sometimes upon who is trying to profit by it.

of the labor trust that with a demand in one hand and a club in the other seeks to supplant you in the running of your factories. You are asked "to put your legs under the table," to use the language of Mr. Mitchell, with the professional agitator and trouble maker to tell you whom you shall and shall not employ; who says that the work shall be performed in certain ways and who makes a proposition that the most inefficient man in your shop shall be paid as much as that rare article, the skilled mechanic. A SWIPE AT DOLD.

I have learned, gentlemen, that you have reason to know that I speak the truth. I believe that nearly all of you have some knowledge of a man named Dold. This Dold I am told is cigar maker, who does not know the difference between a pinno and a Brooklyn-bridge cable. But he saw that the business of a professional agitator was a paying one, and so he started out to organize the piano factories. He began with the piants in Chicago, but he had not made much progress before he ran counter an offensive and defensive alliance of eleven of the piano firms of that city. The employes of these firms were told that' they could join any sort of thing they wanted to, but that the moment a move was made against any one of the eleven firms, out would go every employed of the allied piants. It was no bluff, either, as Dold found out, for it was not long until a strike was inaugurated at one of the plants, and every one of them closed and remained closed for four months, at the end of which time the men came to their employers and acknowledged that they were willing that the plants should be run by the men who owned thempioes and acknowledged that they were willing that the plants should be run by the men who owned thempioes and acknowledged that they were willing that the plants should be run by the men who owned thempioes of the strip of these philanthropic sentiments attrified in you up?

Gentlemen, if any of you are called upon to arbitrate with this trust, may I ask you to keep in mind that you are called upon to arbitrate on fundamental rights supposed to be guaranteed by the Constitution: that you are called upon to arbitrate on fundamental rights supposed to be guaranteed by the Constitution: that you are ask

Gentlemen, the spirit of social brigandage is growing apace. The time forsilence and hopeful procrastination is
passed, if it ever existed. Now or
never is the time to speak out. A halt
must be called in this crusade against
those whose only crime has been that
they have—by their brains, their energy and their capital—built up American industry. The logical results of
a policy of evasion, of compromise are
shown in the great development of the
unions and the increasing number of
strikes. If you give the agitators an

power only to move forward. When the time comes for you to ask for arbitration, you will find the engine will not move backward.

INDUSTRY RESTRICTED.

In New Zealand there is what is called conciliation and arbitration, and it is almost the counterpart of the teamster and anthracite commission arbitration in this country. It has practically rulned the manufacturing of the celony. There is no way of compelling an employer to continue in business or to compel capital to start new enterprises, and the result of the arbitrary wage scales in New Zealand has been to restrict industry and to increase the army of the enemployed in order to put the idle men to work the government resorted to the borowing of millions of dollars for public works, and now the colony has the work of the light of the right of one to interference; the colony has been to the colony has not the colony has n

Mme. Mantelli, in her recital in Blanchard Hall this evening, is to repeat her "Carmen," "Huegunots" and "Mignon" numbers in full costume by request. The remainder of the programme is said to be fully as strong as that given Tuesday evening. The saie of seats has been large. "Thesert that Kills."

"The Thought that Kills" is the interesting subject of a lecture to be given at Blanchard Hall Sunday afternoon by Dr. McIvor-Tyndall. His views and theories, while original and to many, perhaps, impossible of attainment, are claimed to be strictly in accord with scientific principles.

Rev. William Horace Day, pastor of the First Congregational Church of this city, has just been elected moderator of the Pacific Coast Congregational Convention, in session now at Seattle. This gathering represents all of west-ern Congregationalism, and it is per-haps the first time that so young a man has been chosen as its head. Church Building Benefit.

Church Building Benealt.

The Custer Minstrels, under the anapices of St. Athanasius Men's Club, gave a show last night in the St. Athanasius Sunday-school room at No. 496 Custer avenue, for the benealt of the church building fund. The audience was large, many standing in the aisles, and considerable money was realised. The entertainment—well, the less said the better.

President on Y.M.C.A.

A. B. Cass, chairman of the Presidential Reception Committee, yesterday received response from a request for an expression from President Boosevelt regarding the local Y.M.C.A.

"It is aimost needless to say," writes the President, "that I wish well to your effort to establish the Y.M.C.A. movement in Los Angeles upon a firm and broad foundation. The work of the association is potent for good citienship, and as a matter of course I wish it every success."

For Agriculturists.

The Chamber of Commerce has appointed the following committee to take charge of the entertainment of the party of traveling German agriculturists who are expected in Los Angeles the 25th inst: George W. Birby, A. P. Griffith, James Slauson, E. F. C. Klokke, C. F. Rosencrans, Adolph Petsch, Arthur Oishausen, J. Ross Clark, W. J. Hole, George Chaffey, J. A. Reid, H. J. Whitley, H. B. Canby, Fernando; E. C. Coffman, Rivera. Meyer Bros., John J. Fay, Willis M. Dixon, H. W. Virmilion have been elected members of the chamber.

Bishop's Coming Delayed.

Very Rev. P. Harnett, administrator of the diocese of Monterey and Los Angeles, has received a message from Rt. Rev. Bishop Thomas J. Conaty, stating that his coming to Los Angeles to take up the work of the diocese will be delayed. Bishop Conaty's coming to Los Angeles uncertain, but it is expected he will arrive here about the middle of June.

James A. Gray was punched in the brasen face and knocked sick and silly by John C. Ince last night. Gray is probably the most despised of the local clique of union labor out-

a back seat, with a curse, when his mane was rejected, and the trial proceeded. Ince is a former organiser of unions, but a conservative, who opposed lawless strikes and boycott; is superintendent of the Bryson reconstruction job, and was the Democratic nominee for Street Superintendent at the last municipal election.

Humiliating and thorough was the chastisement of Gray, for the boss was defied and whipped by a smaller man at a meeting of his own particular gang. Gray has always posed as, a carpenter, to secure entrance to union circles and a fat job fomenting strikes as a salaried watking delegate, though he has worked only with his vicious lantern jaw for several years. He was squeezed out of the sinceure he held for several terms as president of the Council of Labor, and has since loafed around the lair of Boycotter Hay of the Typographical Union, eking out a hobo's portion by doing odd jobs of dirtiness.

UNDER THE WHEELS.

By Isham Randolph.

SUMMARY OF THE DAY.

City Attorney Mathews stopped the fluntington forces that were laying itrack on South Park avenue yesterday afternoon. The police went out and picturesque work followed.

Col. J. W. Eddy yesterday renewed his application for an incline railway franchise in Griffith Park.

Interesting testimony regarding the peculiarities of Charles Hill was introduced in the big Hill will case yesterday.

Inc. J. S. Sanford is suing the Los ingeles Railroad Company for \$50,320. It met with a trolley accident. Street-car Conductor A. J. Bennett and E. M. Marble had trouble over Canadian dime, and now Marble has broken jaw. The conductor has other roubles.

perintendent Werdin, and together they waited at the City Hail until 9 o'clock Wednesday night for the Mayor to reappear.

The City Attorney was no more successful in finding the Chief Executive yesterday afternoon. The Mayor did not return to his office after the lunch hour. When informed of the position the Mayor had taken, the City Attorney made a search for the Street Superintendent, but he was out for the afternoon attending to street work. Neither Capt. Aubio nor Capt. Bradish could be found at the Police Station. However, Detective Kelly and Desk Sergt. McClure arranged for the police squad, and Deputy Palomare appeared for the Street Superintendent. Then the attornorys for the railway company were informed of the preparations made to stop the work, and the legal conference ensued.

In brief the railway company asserts that inamuch as a franchise was granted within the time prescribed by the Code, worked a forfeiture on the franchise was granted. While the City Attorney admits that the decision gives the railway company as shadow of right to lay tracks, be believes the court would not uphold the contention of the company in the present instance.

the decision gives the railway company a shadow of right to lay tracks,
he believes the court would not uphold
the contention of the company in the

The new line was not rushed through
for the convenience of the people in the
strip of territory it will accommodate,
except in a very limited degree. It is
to be the line to the projected Ascot
race track on the southeastern limits
of the city. For this purpose it was
largely built. Although the Centralavenue line passes near the new race
course, the South Park-avenue line will
land passengers at the very gate. It
continued it would pass through the
middle of the Ascot Park grounds.

EDDY AFTER FRANCHISE.

Before the Park Commission yesterday morning the Eddy franchise application for an incline road up Griffith Peak, in the park of that name, was revived and presented by Commissioner Griffith. The application was presented just a year ago, and was favorably passed upon by the Park Commission and the Council. A legal question arose about the right of the city to grant a franchise in a public park, and the enterprise was dropped. Now the builder of the Angels' Flight is prepared to press his request for a franchise.

In addition to the cable road, the plans contemplate the contruction of

A park will be created at the top of the incline, and the high peak otherwise beautified, if the franchise is granted. The Park Commission passed on the application favorably yesterday, and on motion of Rice, Commissioner Griffith was appointed to present the matter to the Council at its next session.

Commissioners Jones and Stewart were appointed to present the matter to the Council at its next session.

Commissioners Jones and Stewart were appointed to arrange for the improvement of Sunset Park, which was deeded to the city in 1895 by Mrs. Clara R. Shatto. Councilman Farish appeared to urge that something be done. He stated that only \$500 had been spent on the park, and that the fund contained \$1100. Dr. Henderson Heyward, Dr. J. L. Thurston and H. J. Stevens spoke in favor of making the park into a sunken garden, saucer shaped, a form to which the contour of the park readily lends itself.

J. G. Moriey was regularly appointed assistant Superintendent of Parks.

The City Engineer reported that a contour map of Griffith Park would cost about \$1000. The commissioners are very anxious to secure such a map. A vote of thanks was given Manager Henry Koch of the Chutes for allowing the Park Commission to construct a float for the Fiesta parade in the Chutes grounds.

"Oh, it is terrible to be here alone with no friends. I would give a fortune for one good friend."

That was almost the dying wail of old Charles Hill.
This ought to cause qualms of conscience to the 5000 or more people scattered over the United States who claim to be his loving relatives. It was testified to in the trial yesterday. Some queer things came out in regard to the mysterious old man who left the fortune. eft the fortune.

left the fortune.

Although he had all this money in the bank, one of the witnesses testified that his trunk was found to be filled with trash, such as old paper bags and bundles of kindling wood.

A woman down in Texas told in a deposition how the old man always wore black gloves to bed and had such complicated underclothes that it took him a few hours to get to bed or todress.

man, Charles Hill, may have been Salem Charles. It was just a hint here and a hint there, picked up and put together.

It was plain to see that it worried Mrs. Driggs and her daughters.

TEETH COME OUT,

Mr. Hill's "store" teeth made their début in the case yesterday.

These faise teeth were attached to a deposition of Dr. J. H. Meyer, a dentist of New York City, who swears that he made them. This is to be connected as an important circumstanch in support of the claim that Salem Charles were peculiar.

"You can examine them yourself, your Honor," said Mr. Moss. was Charles Hill.

In spite of a cross-examination, the hospital nurse, Miss Darting, stuck to it that she could positively identify them as the teeth of the old man who died in the hospital. She knew them because they were broker.

Mrs. Ada Pahl, superintendent of the Good Samaritan Hospital, where Hill died, followed the nurse on the witness stand.

It was she who received Hill when he went sick to the hospital. She toid her story with direct, clear intelligence.

He was cranky about the hospital arrangements. He had to have its clothes folded in just such a way. The bed didn't suit him in pattern, and he had to have a gas stove in addition to the furnace heat.

In accordance with the custom of the hospital, he tried to find out something about his relatives and family, but it was small satisfaction she got out of him.

TRASH IN TRUNK.

Mrs. Pahl threw a new light on the character of the curious old man when she told of the things they found 'n his trunk. There were great quantities of old paper bags, a lot of empty tin cans, boxes of women's brass hat pins, a can opener, some kindling wood and small pieces of board, evidently intended for splitting up,

She said that just before he died he said pathetically: "This is terribie. Oh, it is terribie to be alone this way, with no friends."
She tried to comfort him, telling him they would be good to him and take care of him.
But, again, as she entered his sick-room, the old man walled: "It is terrible to be so alone. I would give a fortune-for one good friend."
The first real surprise in the case came out in the testimony of Mrs. Frances Field, who runs a bath establishment, and gave Hill medical baths.

He was very deaf and she had to write out the questions to him.

Mra Pahl asked him several times if he had no relatives, and he always replied, "No, none."

She tried to find out where he was born, but he evaded the question, merely saying that he had lived in the East. When she asked him whereabouts in the East, he replied, "All over."

The reason that Hill stopped taking the baths was a funny one. He couldn't afford, he told her, to pay the price ahe asked.

Miss Wise, custodian of the safe-deposit boxes at the Farmers' and Merchants' Bank, testified that Hill came there many times. She remembered him well. She identified his signatures on safe-deposit tags.

She said that it was a custom of the bank to ask the maiden name of the word "Melas," which he said was salem spelled backward. He said he always used this for a password.

Bequel to a trolley-ear accident was a damage suit filed yesterday by Dr. J. B. Sanford against the Los Angeles Railroad Company.

Dr. Sanford claims that he, was thrown to the ground by the sudden starting of a car from which he was trying to alight at Wesley avenue and Fortieth street, February 16. The base of his spine was hit on a rock and, he claims, his legs became paralyzed below the knee. His eyesight is alleged to have been injured, and his right arm rendered useless.

As he has been obliged to abandon his practice as a physician, Dr. Sanford claims damage in the sum of \$80,320.

menced. Stricklett and Thatcher will be pitched by the locals in those games.

Outfielder Dobbs, who was here with the Chicago team some months ago, wired Capt. Reilly of the local Nationals that he had signed with the Brooklyn team and consequently could not come, here. Several weeks ago Fitcher Jack Taylor of the Chicago club wired Reilly that he could get Dobbs, and that player sent on his terms. While Reilly was studying the terms and before he had decided on taking Dobbs, he settled the question himself by signing, with Brooklyn.

The local players are telling a cheap story on Mike Fisher that won't buy that policeman-manager much candy at any of the stores along the high-way of good-fellowship. It seems that least Sunday, in San Francisco, when the Sacramento and Oakland teams were playing. Gannon of the local team was not feeling well enough to play in the National game, so he went across to the Coast League game, and paid his way into the grounds and grand stand. As soon as Mike Fisher as whim, he ordered him out, and had his money refunded, and the local players are still making remarks about Mike's 'cheapnes."

Parke Wilson has signed Long Bill Hanion to play first base for his Seattle team. Hanion was recently released by the Chicago Nationals because of light batting; as a fielder he was a star, and the Selee team has had much trouble in replacing him.

Outfielder Fred Hulseman of Shreveport, La., in the Southern Association has been signed by Wilson also, and he has reported for duty. Hulseman hit for 361 last year and was considered one of the best men in the South.

sidered one of the best men in the South.

Pete Lohman's two infielders have failed to take up their tickets and it looks very much as if he was to be disappointed by them.

Henry Harris, manager of the San Francisco team is dickering with Hildebrand, an Eastern college pitcher now playing in the National league. He wants to come West, but will uot jump.

John J. McCloskey, manager of the San Francisco Nationaiz, has signed Elsey, former captain and first baseman of the Spokane club. Elsey is a six-foot all-around athlets, food with the atick as well as the mitt and he will replace Perham.

Pitcher Nick Altrock, formerly a Seraph, is ill in the East. He will join the Boston Americans about June 1, health permitting.

Capt. Frank Dillon has again refused to release Catcher E3 Huriburt to Vigneaux and the Portland team.

UNIQUE PERFORMANCE. UNIQUE PERFORMANCE.

CHICAGO, May 14.—The "Main Queen," an operatta in two acts, was given at the Y.M.C.A. auditorium by a cast of whom no one could hear the music or utter a word. The cast was made up of a score of the pupils of a school for deaf mutes, and the operatta was part of a programme of choruses, recitations and calisthenic exercises given by them. The song and dialogue incident to the games were rendered in the sign language. The sentiments were made intelligible to the audience by Miss Josephine Toboliska and Miss Minnie Byrne, who interpreted and vocalized the words and songs of the performers.

Treatment Does Effect

The Most Effective Yet Known

Permanent Cures.

If your case has been pronounced incurable, or if you think you have had the best treatment and are not yet satisfied, you are the one I am especially anxious to have investigate my methods and see if there isn't something you have overlooked in your efforts to get well. Vast numbers of people have expressed themselves as more than satisfied with the thoroughness of my work in the treatment of their trouble.

Statement of Interest

to Many Men

With the greater number of men seeking relief for the early decline of strength, I wish to say, my treatment accomplishes more in two to four weeks' time than we could ever hope to accomplish in six months by stomach drugging. The man who has suffered disappointment at the hands of many is the man I am most anxious to meet. He is the one who is quickest to recognize that there is merit in every application I make, and is best fitted to co-operate with me in effecting a cure. I am especially seeking those who have been disappointed. I will show them a rational method of better judament and one that is treatment that will appeal to their for the betterment of their physical condition.

Contracted Diseases

I am confident I cure these allments more quickly and with less pain or inconvenience than anyone claiming to treat successfully these conditions. Has your case become chronic through improper treatment or the use of caustic remedies? Has it caused despecated infammation in the urinary tract, the result of which you now suffer from stricture? Chances are you could have been cured in one week or ten days with my treatment, and even now the chances are favorable to make the cure as quick.

SERIOUS ACCIDENT.

Alex Wixom, a teamster who resides in this city, met with a serious accident yeaterday, while driving down the Arrowhead toll road. He was sitting with his back against the lumber and his right foot braced against the brake chain. Ire some way the brake became loose, and Wixom's leg was caught in the coils, breaking it in three piaces. Then the four horses ran away, finally turning the wagon over into a small cafion. Wixom was frightfully bruised, and lay in the cafion suffering intense pain for four hours, before he was discovered. He was at once brought to this city, where his injuries were dressed.

MINOR MENTION.

Mrs. Ada Binkley, daughter of Justice C. L. Thomas, died yesterday at her home in this city, aged 33 years. The funeral was held this afternoon. The latter years of Mrs. Binkley's life have been crowded with sorrow, Five years ago, her infant son was run over and killed by a street car in Los Angeles. A year inter, her husband, an electric lineman, was killed by a shock from a live wire. Since then Mrs. Binkley has been in poor health and her death was not unexpected.

When the City Trustees meet next Tuesday evening the programme is to take sleps providing for the immediate payment to A. G. Hubbard of Redlands, 36,000 for 100 inches of Lytle Creek water, at present leased by the city, thereby effecting a saving of 315 day.

Peddler's Whisky-Drug Stores Sup-plant Saloon-Butter Makers Get Good

SAN JACINTO, May 14.—Three Sobobs Indian women were in court Saturday, charged with assault to kill another Indian woman at a near-by sheep-sheering camp Wednesday. Whisky was smuggled into the camp by an itinerant peddler, and the redskins of both sexes became howling drunk. In a free fight which followed the three women unmercifully beat and nearly killed a fourth Indian woman. When on the witness stand the principal witnesses to the fight could not testify, as at the time of the fight they were so drunk as to not know what had occurred. The case was dismissed by Judge Vawter.

VALLEY EVENTS.—

Rev. Henry W. Stewart, pastor of the Christian Church for the past five years, died Wedensday at the home of Mrs. A. A. Gould. Rev. Stewart, although a sufferer for many years with lingering consumption, was the cheriest of optimists, and an ardent worker in the Christian cause. His removal is universally mourned in this valley. The apiarists have begun to extract their large honey crop. The honey promises to be white and of a very mild sweet flavor.

The apricot and peach crop will be large, while the crop of pesrs will not average more than 50 per cent. of the usual yield.

John Armburst has purchased the W. E. Walker twenty-acre tract of land west of town for \$1000. The property is to be highly improved.

The San Jacinto Ball Club lost to the Riverside team Saturday by a score of 12 to 7. San Jacinto will play San Bernardino on the home grounds Saturday. g.

Later in the evening the Senator and party went by special train to San Bernardino, where they took the Santa Fé train for Jerome, Ariz.

Before departing Senator Clark said:
"You may tell the people of Riverside that this city will not only be on the main line of the Sait Lake road, but that the very fastest trains and the finest equipment will be given them. We expect to complete the bridge over the Santa Ana River by June 15, and a short time later trains will be running into Riverside. In a few days our depot sites will be selected. Riverside has not been and is not being well treated by the two completed railroads in this State. It is my intention to give your city as perfect a railway service and system as is possible." SANTA ANA.

LYING BEGGAR JAILED.

SANTA ANA, May 14.— A smooth grafter giving the name of James Porter, was taken into custody by the officers here today for working guilible citizens with a sympathy story about a maimed boy. Porter, who halis from Chico, represented that in a runaway accident at Tustin, two years ago, his little son had his leg so badly injured that the member had to be amputated, and he was soliciting money to help purchase an artificial leg. The graft was working like a charm, when Porter encountered a man versed in the history of Tustin local happenings, who by inquiries learned that the fellow's representations were false; that he had never been in Tustin, and later, in the Justice Court, it developed that he had ho boy. Justice Smithwick found the professional mendicant guilty of vagrancy, and gave him a ninety-day sentence at the County Jail, where he will work out his salvation in the improvement of the Courthouse gardens.

in addition to breaking all local records, nearly broke the back of the postoffice force.

Tuesday night all the clerks and workers in Uncle Sam's employ at Eighth and Spring were hustling their best in order to clear away several wagonloads of The Times' complete history of La Fiesta de las Fiores, and even then they did not get through. There have been other special editions that caused the postoffice to work overtime, but nothing like the present crush has ever occurred in the city. A two-horse wagon and two men have been doing nothing but travel around town and pick up the bulky bundles, dumping them periodically into the main office, from whence they go all over the United States and Juside it; some to the Philippines, some to Canada, some to Mexico, others to South America, a number to the South Sea Islands, and a few to nearly every place on earth. Hundreds of them will cross the Atlantic,

After several minutes of careful consideration, based upon the weight of papers that has been handled, the mailing superintendent at the postoffice yesterday estimated that Uncle Sam had aiready accepted no less than 125,000 copies of that big Fiesta Edition, and more are coming every day.

Tuesday night there were two piles of them, each twenty-five feet long and five feet high. That was a part of the day's grist, and it resulted in a general assembly call being sounded which brought the whole mailing force back to the office for several hours of hard work. On the night in question fortytiwo sacks of The Times Fiesta Edition were delivered at the postoffice, and there is approximately six dosen of them in each sack. That was a night's work, not a full day. In fact, it was just one load.

The mailing foreman does not know what he will do if the big special editions of the Times continue to increase in public favor. Some of the midwinter numbers were very heavy, but the present Flesta crush is at least 50 per cent. worse than anything that ever happened before.

The wide circulation of the edition is now out, and cop

THE OIL INDUSTRY C'TANDARD'S PIPE LINE

REPORTED A FAILURE. UNEASINESS AND DISTRUST

AMONG KERN PRODUCERS.

misgivings have culminated to an alarming degree.

According to the San Francisco Chronicle the land owners of the field suddenly come to regard the Standard with much distrust and the wildest conjectures are indulged in as to Rocketeller's plans for a stifling grip on their throats. Some of them are confident that the pipe line will spout oil from its bay teminus successfully if the Standard people so desire, and that they give out reports of failure for the purpose of depressing the price of lands in Kern's oleaginous belt with a view to becoming their owner. On the for the purpose of depressing the price of lands in Kern's oleaginous belt with a view to becoming their owner. On the other hand, if the line is really not a success, the disappointment will be keen to the claim owners, because it was hoped that the operation of the conduit would occasion a malerial rise in the price of crude oil.

The capacity of the pipe was intended to be 10,000 barrels a day, and this amount withdrawn from the crude market and disposed of in the refineries would have had a wery beneficial effect on the price of the product for fuel and road-making.

There are at present twenty-eight pumping stations, and this number will have to be doubled to force through the heavy Bakersfield oil. At every station the stream is heated in passing through a coil of pipes, and as the lighter ingredients evaporate in this process the oil becomes denser after it cools again. The stream has reached no farther than the station at Corcoran, which is only half way to Point Richmond.

It is feared that even if the oil can eventually be pumped to the bay the cost and operation of 80 many stations will make the shipment of oil by the pipe line more expensive than by rail. The \$2,000,000 line would then be a hopeless failure, and the great plans for the refining of California oil would necessarily be curtailed and the

expected relief from an oversupply in the crude market would not be realized. The value of the Bakernsiciand. The value of the Bakernsiciand would be seriously depreciated and the hopes that the Standard would soon begin to buy them up at good prices in order to supply the big refinery at Point Richmond would be dashed to the ground. At present the company owns no oil land in Kern county, but it has contracted for about 15.000, an avenue of relief that is looked to is the building of the Midland Pacific Railroad from the oil belt to Port Harford, in San Luis Obispo county. It is expected that within a month the dirt will be flying, and that trains will be running within a year. The Midland Pacific, when completed, will, of course, benefit the claim owners very much, because it will alleviate the transportation problem, which is all important in the oil business.

"The advantage could not be so great if the Standard had succeeded in filling its promises of diverting 16,000 barrels a day from the Bakernsied wells to the refining process and relieve the giut in the market," says the Chronicle. "Had the company been able to transmit 10,000 barrels a day to its refineries, it would have produced enough kerosene to supply the Pacific Coast, China, Japan and the Philippines.

"The affrighted oil men even sus-

enough kerosene to supply the Pacilic Coast, China, Japan and the Fhilippines.

"The affrighted oil men even suspect the Midland Pacific. They say that some of the railroad's promoters were formerly employes of the Standard, and may be working really in the interests of that company. The fact that John D. Rockefeller is interested with George Gould in the promotion of the Western Pacific Road to this Coast is the only thing that reassures them that the Standard will not form a freeze-out combination with the Santa Fé or Southern Pacific, as was done with the Pennsylvania railroads, when it secured full control of the oil interests of that State.

"The opinion is advanced that the Midland Pacific may be intended to become a part of the Western Pacific and provide it with an ocean terminus which it was denied in San Francisco at the recent session of the Legislature."

SPECIAL CORRESPONDENCE OF THE TIMES. I SANTA MARIA. May 14.—Pressure is being brought to bear on the railroads of this part of the country traversing near the Santa York Valley, to induce them to lay their tracks to that fertile place. On several occasions it has been given out that this would be done, but as the traffic did not warrant it both the Southern Pacific and the Pacific Coast roads held off. This season promise an exceptional crop of grain and as the 'trade conditions have improved considerably it is very probable that the region will be tapped by one or the other of the roads. At present the farmers haul their grain either to Los Olivos to the narrow-gauge or to Gaviota and load on to the Southern Pacific.

SUIT TO SWAP BACK.

Sick of his bargain in swapping city real estate for 1000 shares of the Stephens Process Company, J. M. Herndon has brought suit to swap back; he claims he was cheated.

The suit is brought against Albert G. Stephens and Elizabeth Stephens. Herndon claims that the "Stephens Process" was represented to him as a process by which low-grade ore could be worked at a profit. After spending 31000 on it, Herndon claims that he discovered the process to be worthless.

On Friday evening of next week, Dr. George L. Cole, the archeologist, will deliver a lecture in the High School assembly-room on the cliff dwellers, to which a small admission fee will be charged, the proceeds to go toward buying a handsome \$75 stereoption to be placed in the school building. Dr. Cole contributes his services and has secured the stereoption at the greatly-reduced price of \$25. The idea is to use the machine in illustrating various studies which the pupils have to contend with, thus giving them a mental picture that may be more easily remembered. The stereoption will also be used by pupils of the grammar schools, and it is hoped that a number of slides may be bought at the same time.

REV. DR. FRARY DEAD.

LONG BEACH. May 14.—Rev. Dr.

Lacien H. Frary, until recently pastor of Pilgrim Congregational Church at Pomona, and one of the most prominent members of that ministry in Southern California, died at his home in this city last night. He was born, at Haverhill, N. H., March 19, 1832, and was a graduate of Dartmouth College, and Andover Theological Seminary. After a successful pastorate in Middleton and Weymouth, Mass., the family came to California in 1838 for the benefit of an only daughter's health, but she died at Sierra Madre the following year. In 1839 Rev. Mr. Frary took charge of Pilgrim church in Fomona and remained until his health failed, and he came to Long Beach last November for rest. He will be especially remembered for the splendid work he did in building up Pilgrim Church and Pomona College, though his services to the church and community at large were great, The funeral will be in Pomona at 2 p.m. Saturday, Rev. Dr. Warren S. Day officiating, assisted by Dean E. C. Norton and Rev. C. B. Sumner of Pomona College. The remains will be taken.

Surprises From

Manufacturer's Clothing Sale.

The heavy trading of the past ten days has depleted some of the fines, but they have been regrouped as far as possible to get a good complement of sizes at a price, and the selections are nearly as good as when the sale first started. Remember, they are high grade tailored clothing priced at just about the cost of making.

lots and broken lines of worthy merchandise quickly collect, and as an enter-

prising firm we cannot carry them in regular stocks, but must mark them at

rapid selling prices. Therefore Friday is our weekly "surprise" day. We used

to call it Bargain Friday but cheap imitators made use of the same caption to

sell inferior goods; so we chose the new caption "Friday Surprises," for the

term covers all that the word "bargain" implies with the added zest of being
